

i-UP 13200

External battery for
Notebooks and Netbooks

black, other colours
possible on request

Description

External battery for Notebooks and Netbooks (4 different output voltages possible). Elegant black design. 10 adapter types included.

Part Number

U0080 i-UP13200

Function

The i-UP13200 external battery is specially designed for charging Notebooks and Netbooks. The i-UP13200 is charged using the supplied power adapter (220V). Thanks to the i-UP13200 you can charge your computer anytime you are short on power. Whether you are on a train or at a customer, no need to go hunting for a power outlet anymore. Pressing the button shows the current charge status of the i-UP13200 (LED display).
